Ethical Balanced Dynamic, a compartment of NEF

Class: D (Distribution) LU1538290393

NEF is an umbrella and multi manager Fund managed by Nord Est Asset Management S.A.

Objectives and investment policy

The Fund is a balanced fund, whose objective is to achieve capital appreciation, by respecting the Environmental, Social and Governance (ESG) principles by investing mainly in bonds and equities of companies with a high quality ESG profile.

The Fund is managed actively in reference to the following composite benchmark: 15% MSCI World Net Total Return EUR Index (EUR unhedged), 20% MSCI EMU Net Total Return EUR Index (EUR unhedged), 15% ICE BofAML Euro Corporate Index (EUR unhedged), 40% ICE BofAML Global Government Index (EUR unhedged), 10% ICE BofAML Euro Treasury Bill (EUR unhedged).

For the construction of the portfolio, the benchmark serves as reference in terms of overall exposure to risk factors including country, credit, interest rate, currency and sector allocation.

Amplitude of deviations from the benchmark varies depending on the degree of conviction of the investment manager.

The Fund invests in securities issued by:

- OECD member countries and countries that launched enhanced engagement with the OECD
- Supranational organizations and entities with investment grade (IG)

The Fund's portfolio duration is between 0.5 and 8 years.

The Fund may invest in:

- Equities, or other funds investing in equities: from 25% up to 45%
- Bonds, or other funds investing in fixed income instruments: from 40% up to 75%
- Corporate Bonds with credit rating lower than IG, or other funds investing in Corporate Bonds with credit rating lower than IG: up to 35%

The Fund may also invest in money market instruments or in other funds investing in money market instruments.

In order to achieve its objectives and to offset risk the Fund can invest in derivatives.

The Fund aims to pay out a dividend on an annual basis. The ex dividend date is the fifteenth day of January (or the first following Business Day) and for the first time in January 2018.

Investors can buy or sell units of the Fund every day which is a bank business day in Luxembourg.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 4 reflects moderate potential gains and/or losses for the portfolio. This is due to investments in stocks and bonds with an Environmental, Social and Governance profile.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Concentration risk: To the extent that the Fund's investments may be concentrated in a particular country, market, industry or asset class, the Fund may be susceptible to loss due to adverse occurrences affecting that country, market, industry or asset class.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Derivative for hedging purpose: The use of derivatives for hedging in a rising market may restrict potential gains.

Interest rate risk: An increase in interest rates may cause the value of fixed-income securities held by the Fund to decline. Bond prices and yields have an inverse relationship, when the price of a bond falls the yield rises.

Financial, economic and political risks: Financial instruments are impacted by various factors, of which, without being exhaustive, the development of the financial market, the economic development of issuers who are themselves affected by the general world economic situation as well as economic and political conditions prevailing in each country.

Credit risk: The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

For a comprehensive description of the risks, please see the "Risk factors" section of the prospectus.
