What is this product?

Type

- This product is a class of units of the Sub-Fund and is denominated in EUR. The Fund is an open-ended undertaking for collective investment (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to Undertakings for Collective Investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Objectives

Investment objective:

- The objective of the Sub-Fund is to achieve a positive return and capital appreciation during a whole market cycle, in Euro, through a dynamic asset allocation and a careful risk control.

Investment policy:

- The Sub-Fund seeks to invest mainly in global bonds with a high Environmental, Social and Governance ("ESG") profile, "green bonds" and "social bond" based on the investment manager's in-house research and/or third party ESG ratings while applying an ESG promotion approach. The Sub-Fund promotes, amongst others, some ESG characteristics in compliance with Article 8 of the Sustainable Financial Disclosure Regulation ("SFDR") but does not have sustainable investment as its objective. An exclusion list will further be followed by the investment manager.
- The portfolio will mainly invest in investment grade securities with a maximum allocation of 20% in High Yield and a maximum of 10% in emerging market securities. The Sub-Fund may invest in securities traded on the China Interbank Bond Market (CIBM) through the CIBM direct access or Bond Connect. The Sub-Fund may also invest up to 15% of its assets into ABS or MBS. At least 85% of investments in other currencies will be hedged in Euro.
- Financial techniques and instruments for hedging and/or investment purposes may be used. The Sub-Fund may invest in credit default swaps (as stipulated under "Financial Techniques and Instruments" in the Prospectus). The aggregate commitments on all credit default swaps will not exceed 120% of the net assets of the Sub-Fund. The Sub-Fund will not invest in distressed or defaulted securities.
- The Sub-Fund is actively managed with no reference to a benchmark.

- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 2 years.

Subscription and Redemption: Investors can buy or sell units of the Sub-Fund every day which is a bank business day in Luxembourg ("Business Day").

Distribution Policy: Income generated by the Sub-Fund is reinvested and included in the value of units.

Intended investor

Category C will be available for (i) all legal persons who do not qualify as "institutional investors" as defined in the prospectus of the Fund and (ii) all natural persons.

It is aimed at private and institutional investors with a medium and long-term investment horizon, who wish to invest in a broadly diversified portfolio of medium- and long-term fixed and variable interest securities and to achieve a reasonable investment and capital return, while being aware of the associated price fluctuations.

The minimum subscription is EUR 50.000.

Term

The Sub-Fund was incorporated for an undefined period. The manufacturer may terminate this product unilaterally under the conditions set forth in the prospectus of the Fund.
