What is this product?

Type

- This product is a class of units of the Sub-Fund and is denominated in EUR. The Fund is an open-ended undertaking for collective investment (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to Undertakings for Collective Investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Objectives

Investment objective:

- The objective of the Sub-Fund is to achieve total return, primarily through capital appreciation and secondarily through dividends, by investing primarily in equity securities from issuers domiciled in the USA.

Investment policy:

- The Sub-Fund is actively managed in reference to the benchmark MSCI USA Net Total Return USD Index (EUR unhedged) (the "Benchmark"). The Benchmark is not replicated; it merely serves as a starting point for investment decisions. The investment manager seeks to outperform the Benchmark. The composition of the Sub-Fund and its performance may positively or negatively deviate significantly from the Benchmark.
- The Sub-Fund has the flexibility to invest in American Depositary Receipts and American Depositary Shares listed on the major U.S. stock exchanges. From time to time the Sub-Fund may employ hedging techniques.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Subscription and Redemption: Investors can buy or sell units of the Sub-Fund every day which is a full bank business day in Luxembourg ("Business Day") and the New York stock Exchange is opened for trading.

Distribution Policy: Income generated by the Sub-Fund is reinvested and included in the value of units.

Intended investor

Category C will be available for (i) all legal persons who do not qualify as "institutional investors" as defined in the prospectus of the Fund and (ii) all natural persons.

It is suitable for investors with a good knowledge of the United States capital markets and who are not afraid of Dollar fluctuations in relation to the Euro. It is also suitable for expert investors who wish to pursue well-defined investment objectives by sector in that geographical area. The investor must be aware of a possible high volatility of the transferable securities in portfolio and be able to withstand temporary losses of considerable proportions.

The minimum subscription is EUR 50.000.

Term

The Sub-Fund was incorporated for an undefined period. The manufacturer may terminate this product unilaterally under the conditions set forth in the prospectus of the Fund.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we, as the management company acting on behalf of the Fund, are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the Sub-Fund to pay you.
