Notes: Instructions of Do Not Vote are not considered voted. Frequency on Pay votes of 1, 2, 3 years are counted by type (For, Against, etc.) per proposal. Votes on MSOP proposals will only be counted as a vote on MSOP and not as the actual vote cast (For, Against, etc.) per proposal to avoid duplication of data. In cases of different votes submitted across ballots for a single meeting, votes cast are distinctly counted by type (For, Against, etc.) per proposal. So, a meeting may have inflated total votes submitted than unique proposals voted.

The normal award limit under LTIP is being increased from 150% of salay to 200% of salay, following a benchmarking exercise. The main reasons for support are. The increased limit is not considered excessive for a company of this size, with the resulting LTIP quantum and total compensation remaining at the lower end of the market range. The proposed change rebalances the Company variable pay structure towards long-term incentivisation), maintaining alignment of management interests with shareholders. Several positive features have been added in the remuneration polic including the pension alignment, post-cessation shareholding requirements, mandatory bonus deferral and enhanced malus/clawback provisions.	s

A voter FOR this resolution is wait allead, analogul is a tow following a benchmarking warcise. Enruses were subject to a cash flow measure with a cliff-edge structure. The main reasons for support are: The first wards graried under the higher limit will be subject to more suitably challenging performance targets. The Remuneration Committee has provided a commitment to account the Company's underlying financial performance and any potential windfall gains prior to determining the final vesting outcome. Bonus outcome is considered appropriate and the Committee's decisions to increase the target during the year and apply downwards discretion to the formulaic outcome have been noted.

The Group amended the terms of the FY22 LTVR award to better align with shareholder interests and market the upfront adjustment for estimated distributions, adjusting the TSR targets such that below index performance vesting is no longer rewarded, and - removing the additional 25 percent award for maximum TSR achievement. Nevertheless, the qualification is to highlight the following inconsistencies and concerns: -The quantum of the LTI award has been pro-rated to 9 months up to the CEO seriement in September 2022, however the annualised value of the award remains above the market median for CEOs of similar sized companies and peers, -The Group has not disclosed the ROCE maximum hurdle measure, which if achieved would still enable an additional 25 percent to be earned, and -The upfront adjustment for distributions has been replaced by a cash equivalent payment for dividends on any rights that ultimately west. The opportunity of payment for dividends on unvested shares remains inconsistent with better market practice noting there is no entitlement to dividends during the performance period on such awards.	¢

The main reasons for support are: -The Company has grown in size and complexity since the last AGM. Since the last policy review, the Company's market capitalisation has double and its properly portion value has increased by more than 50% to GBP 18.4 billion. The Remuneration Committee explains that in this context, the CEO's current remuneration is being increased as it is significantly behind the FTSE 100 and large REITs marketIf the CEO's maximum LTIP award is increased, his shareholding requirement will also be increased to 400% of salary No further material issues have been identified.

1623176	Vonovia SE	VNA	Germany	29-Apr-22	Annual	Management G	Compensation	6	Approve Remuneration Report	Yes	Against	For	Yes	Yes	Insufficient shareholding. A qualified vote FOR this resolution is warranted because the company's remuneration report is broadly in line with, and even exceeds in many respects, best practice standards in Germany. However, the proposal is not without concern, considering the legacy defined benefit pension plans for certain executives result in pension contributions that me considered excessive (e.g. for the CEO, approximately 64 A precent of the base salary). However, concerns are mitigated as the total pay package is not considered excessive from a part of pre-performance standpoint and executives pining as of 2021 shall no longer participate in such pension plans. Notwithstanding, investors increasingly encourage executives to have pension arrangements aligned with the wider workforce.	•

However, this is not without the following concerns: The board has not provided a compelling stallande for the increase in the COSO smaximum LTI proportinely from 100 percent of salary under the current remuneration policy to 150 percent of salary (on annualized basis). The board introduces in this remuneration policy the possibility to grant one-off awards (capped at 100 percent of salary) to management. This is a cause for concern, as (i) management's current pay package appears sufficiently competitive, (ii) this is not common practice among the company-selected peers; and (iii) the board has not provided sufficient information on the vesting conditions of the extraordinary awards it granted to management in 2021.

Several LTIP features, including treatment of equity under termination and/or CiC event, are left to the board discretion. Lack of disclosure around the performance targets attached to the annual bonus so unable to assess pay for performance alignment. We support this proposal. We support this proposal.	Confirmed

Accordingly, the committee has demonstrated adequate responsiveness. There continue to be some concerns regarding the complex nature of the conpany's multiple equity incentive programs, particularly with respect to the PPP program, and the rigor of LTI goals. However, these concerns have not resulted in a quantitative pay-for-performance misalignment for the year in review. In addition, the annual LTI and outperformance programs are entirely performance-based, and the value of the CEO's PPP awards discreased significantly year-over-year. Further, the committee increased the rigor of the annual LTI goals for future award cycles and eliminated the committee sability to provide discretionary payouts when threshold goals are not achieved. Lastly, the annual program for all NEOs is now predominately based on pre-set, quantified goals with all targets clear disclose, following an increase in the weighting of the corporate performance component for non-CEO NEOs and disclosure enhancements made in response to sharehold redebasic. On balance of these factors, a vote enhancements made in response to sharehold refedbasic. On balance of these factors, a	Committee

																changes to severance-related issues since last year's say-on-pay vote that received only 55 percent support. The company re-affirmed that the legacy provision at issue in a former NEO's prior employment agreement will not be included in any new company employment agreements in the future, but that commitment was already disclosed by the company prior to the 2021 vote. It is also highly concerning that the company maintains an agreement containing an excessive severance entitlement with the current CEO that fair exceeds market norms, on the backdrop of consecutive years of low say-on-pay support and where outsized severance was a noted shareholder concern. The committee's statement in the 2022 proxy that "It will again consider, as has in the past, the severance arrangements provided to our CEO when his contract is up for renewal" does not represent a meaningful commitment to reduce the CEO's problement, excessive severance entitlement. Based on this, the committee demonstrated only a limited degree of responsiveness. As such, a vote AGAINST this proposal is warranted.	s it

Corporate governance concerns are noted regarding the poor disclosure and valuation of the LTI grants. The largest component of CEO remuneration has been delivered in thorn of LTI performance injsh based on performance measures which may be concluded to be less than rigorous. When calculating the LTI grant at face value (e. using the actual share prival which is alconologied as the market standard, rather than using a heavily discounted fair value' of the share price (with discounting even higher, the longer the additional vesting after the performance period), the excessive nature of the LTI relative to local market peers is apparent. It also noted that the STI award for other executives includes a number of non-inancial performance measures with poor disclosure of targets and outcomes and the use of EPS growth stagets in bot the STI and LTI has the potential to duplicate bonuses for achieving the same underlying performance outcome.	er ee sis

The quantum of the rights to be granted is considered to be excessive and is well above the median for CEOs in the ASX 1-25 group. Other security-holder concerns include: - The EPS vesting range which has been set at 6 percent to 11 percent around growth, is inadequate and insufficiently challenging being well below EPS growth rates reported by the company over the last five years Disclosure of a heavily discounted fair value (economic value) of the Group's security price to allocate a high number of rights to be granted is problematic and inconsistent with market practice. When valuing the equity grants the equity grants here are consistent with market practice. When valuing these relatives to increase high exists is excessive relative to increase high exists and confirming the excessive trajectory of equity grants by the Group over the last five years.
