What is this product?

Type

- This product is a class of units of the Sub-Fund and is denominated in EUR. The Fund is an open-ended undertaking for collective investment (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to Undertakings for Collective Investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Objectives

Investment objective:

- The objective of the Sub-Fund is mainly to invest in Euro denominated investment grade bonds issued by both European and non-European companies which are traded on the regulated bond markets of the Economic and Monetary Union, rated at least BBB-/Baa3.

Investment policy:

- The Sub-Fund is actively managed in reference to the benchmark ICE BofAML Euro Non-Financial Index - (EUR unhedged) (the "Benchmark"). For the construction of the portfolio, the Benchmark serves as reference in terms of overall exposure to risk factors including country, interest rate and credit position. Amplitude of deviations from the Benchmark varies depending on the degree of conviction of the investment manager.
- The Sub-Fund mainly invests in Euro denominated investment grade bonds issued by both European and non-European companies which are traded on the regulated bond markets of the Economic and Monetary Union, rated at least BBB-/Baa3. The Sub-Fund may also invest in selected bonds denominated in Euro, issued by quasi-governmental and public issuers outside the Eurozone. To a lesser extent the Sub-Fund can invest in bonds with a rating below investment grade (up to 20%), or in non-Euro denominated bonds on an hedged basis (up to 25%) or in emerging markets bonds (up to 10%).
- Financial techniques and instruments for hedging and/or non-hedging purposes may be used.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 2 years.

Subscription and Redemption: Investors can buy or sell units of the Sub-Fund every day which is a bank business day in Luxembourg ("Business Day").

Distribution Policy: The Sub-Fund aims to pay out a dividend on an annual basis.
