NEF Ethical Target 2029 is authorised in Luxembourg and regulated by the CSSF.

This product is managed by Nord Est Asset Management S.A., which is authorised in Luxembourg and supervised by the CSSF.

**Accurate as of: 2 December 2024**

## What is this product?

### Type

■ This product is a class of units of the Sub-Fund and is denominated in EUR. The Fund is an open-ended undertaking for collective investment (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to Undertakings for Collective Investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.

■ As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

### Objectives

#### Investment objective:

■ The Sub-Fund will mainly invest in global bonds issued by public and private bodies with an average legal maturity not exceeding December 31, 2029, and the legal maturity of individual holdings not exceeding December 31, 2030. The Sub-Fund promotes, amongst others, some ESG characteristics in compliance with Article 8 of SFDR but does not have sustainable investment as its objective. An exclusion list will further be followed by the investment manager.

#### Investment policy:

■ The Sub-Fund may invest up to 100% of its portfolio in fixed rate or floating rate bonds, other negotiable debt securities and money market instruments (treasury bills, treasury notes, certificates of deposit) from all economic sectors. The Sub-Fund will not invest in equity securities.

■ The Sub-Fund may invest up to 25% in high yield bonds and up to 10% in corporate and government bonds from issuers of Eastern European emerging and developing countries.

■ The average rating of the whole portfolio of the Sub-Fund will not be lower than BBB-. To the extent a publicly issued rating for a security is not available, the Sub-Fund may invest in unrated securities, and rely, notably, on private or shadow ratings issued by one of the major rating agencies, securities issuers' ratings or Investment Manager's own internal ratings.

■ The Sub-Fund may also invest in financial derivative instruments for hedging purpose, for efficient portfolio management and investment.

■ The Sub-Fund is actively managed with no reference to a benchmark.

■ Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

**Subscription and Redemption:** Investors can buy or sell units of the Sub-Fund every day which is a bank business day in Luxembourg ("Business Day").

**Distribution Policy:** The Sub-Fund aims to pay out a dividend on a semi-annual basis.

### Intended investor

It is aimed at private and institutional investors looking for greater returns, or a higher income than provided by cash holdings or by quality global government bonds, who are willing to accept the risks associated with their investment, and who are prepared to remain invested until the end date.

Category D will be available for any kind of investors.

The minimum subscription is EUR 500.

### Term

This product was incorporated for a defined period until December 31st 2029, after which date it may be automatically merged into a sub-fund of NEF. The manufacturer may terminate this product unilaterally.

### Practical information

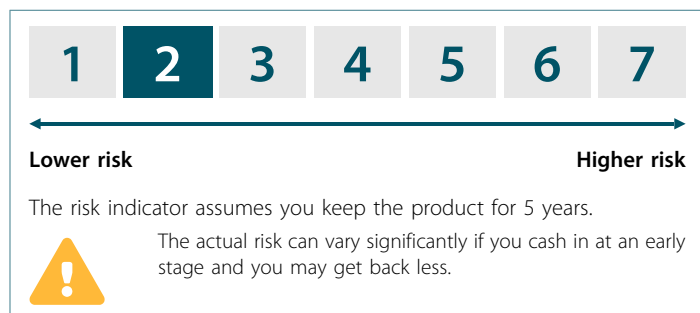

**Depository and UCI administrator:** CACEIS Bank, Luxembourg Branch, 5 Allée Scheffer L-2520 LUXEMBOURG.

**Further information:** The Fund's prospectus and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-funds. Unitholders are entitled to convert their units in units of another category within the same sub-fund or in units of another sub-fund as described under "Conversion" section of the prospectus.

Copies of the prospectus, last annual and semi-annual reports and other practical information such as the latest price for the units may be obtained free of charge, in English and Italian, at the registered office of Nord Est Asset Management S.A., 5 Allée Scheffer, L-2520 Luxembourg or, in English and in Italian, on our website [www.neam.lu/lu/documents](http://www.neam.lu/lu/documents).

## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we, as the management company acting on behalf of the Fund, are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the Sub-Fund to pay you.

This product is in this category because it invests in a range of assets with different levels of risk and its simulated and/or realised return has experienced a low level rises and falls historically.

Not all risks affecting the Sub-Fund are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, these include: emerging market risk, liquidity risk, financial, economic and political risks, credit risk, and use of derivatives.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we, as the management company acting on behalf of the fund, are not able to pay you what is owed, you could lose your entire investment.

**Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the "Risk factors" section of the Fund's prospectus, available free of charge at [www.neam.lu/lu/documents](http://www.neam.lu/lu/documents).**

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 30 May 2017 and 30 September 2022.

**Moderate:** this type of scenario occurred for an investment between 26 November 2018 and 28 March 2024.

**Favourable:** this type of scenario occurred for an investment between 30 May 2014 and 30 September 2019.

### What happens if Nord Est Asset Management S.A. is unable to pay out?

You are exposed to the risk Nord Est Asset Management S.A., acting on behalf of the Fund, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

## Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	<b>€ 435</b>	<b>€ 935</b>
<b>Annual cost impact*</b>	<b>4.3%</b>	<b>1.7%</b>

(\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 1.0% before costs and -0.8% after costs.

## How long should I hold it and can I take money out early?

### Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking into account the above objectives and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Redemption requests must be received before 2 p.m. Luxembourg time on each Business Day to be dealt with on the basis of the net asset value per unit applicable on that day ("Valuation Day"). Payment for redemptions is expected to be made within 1 week from the Valuation Day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

## How can I complain?

If you have any complaint about the product, please find the steps to be followed for lodging any complaint at [www.neam.lu/lu/documents](http://www.neam.lu/lu/documents).
